

# Codebook for Medication Assisted Treatment in State Correctional Facilities

**Prepared by Legal Science, LLC**

August 2019

## MEDICATION ASSISTED TREATMENT IN STATE CORRECTIONAL FACILITIES

*August 2019*

### Codebook

This preliminary dataset examines laws and policies on medication assisted treatment (MAT) for opioid use disorder at state correctional facilities. The U.S. Food & Drug Administration (FDA) has approved three drugs for the treatment of opioid use disorder: buprenorphine, methadone, and naltrexone. This dataset is cross-sectional, capturing currently effective laws and policies valid through August 1, 2019.

There are three standard variables in every PDAPS dataset. They are:

#### **JURISDICTION:**

This is a dropdown selection in each coding form. It includes the jurisdictions coded in the dataset.

#### **EFFECTIVE DATE:**

This date (MM/DD/YYYY) is the most recent effective date of the legal text captured for this place. The effective date represents the date the policy coded was put into effect.

#### **VALID THROUGH DATE:**

This date (MM/DD/YYYY) is the last date the policy was in effect as reflected by the legal text captured to code this policy.

## Questions

Question 1:	<b>Does the state offer all three FDA-approved medications for MAT to all state inmates?</b>
Question Type:	Binary - mutually exclusive
Variable Name:	MATCrim_threeall
Variable Values:	0, 1
Value Label:	0 = No
Value Label:	1 = Yes
